

Title: Building an International Academic Bridge in Accounting between Tunisia and Shanxi Finance & Taxation College in China

To deepen cultural exchange in the field of accounting between China and Tunisia and promote international academic collaboration, Shanxi Finance & Taxation College successfully hosted the "Global Recognition Accounting Training Program" on the OOOK LIVE platform from 9:00 to 12:00 on December 18, 2023. The event was presided over by the Dean of the College of Accounting, Gao Cuilian, with the aim of enhancing the understanding of accounting majors among students from both China and Tunisia and fostering a bond for international academic cooperation.

Dean Gao Cuilian first showcased the natural scenery and rich historical culture of Shanxi Province to Tunisian students, cleverly bridging the cultural gap between China and Tunisia. Subsequently, she provided a detailed introduction to the founding history, educational philosophy, and distinctive features of Shanxi Finance & Taxation College, offering Tunisian students a deeper insight. Dean Gao Cuilian particularly emphasized the outstanding strength of the school's accounting faculty, showcasing the school's excellent capabilities on the international academic stage and laying a solid foundation for academic exchange.

During the breaks in the exchange, students from the University Arabe of Sciences(UAS) in Tunisia engaged in profound subject discussions with students from Shanxi Finance & Taxation College, sharing their respective cultural and academic experiences and further deepening their friendship. Chinese students presented Jay Chou's "Rice Fragrance" to Tunisian students, skillfully bringing the emotional distance between them closer. Finally, the Chinese side warmly welcomed Tunisian students to engage in in-depth exchanges at Shanxi Finance & Taxation College and sincerely invited students of UAS to visit the school in China, jointly embarking on a cross-cultural academic journey.

Through this international academic exchange activity, we look forward to promoting deep cooperation between schools in China and Tunisia in the field of accounting, fostering cultural exchange, and setting a new example for international collaboration in the accounting profession. This event also represents a grand occasion for deepening the friendship between China and Tunisia, contributing positively to the progress of global education.
